	<p>CAT Kit The Cognitive Affective Training (CAT) kit is a program that consists of visual, interactive, and customizable communication elements for children and young adults. It is designed to help students become aware of how their thoughts, feelings and actions all interact and, in the process of using the various visual components, they share their insights with others. It is an easy and effective way to work with neurotypical children and young adults as well as with people with developmental disabilities.</p> <p style="text-align: right;">\$199.95</p>
